

SM discussion

It's only 11 years to the tribulation, so we should expect to see the increasing birth pangs that Yahowsha spoke of and right on queue we do. Earthquakes have been occurring at an increasing rate (google that if in doubt), wars international and intranational are every where and we are on the brink of an economic collapse of an unheard of scale.

We are seeing prophecy come alive before our eyes.

(Relevant passages: Rev 13:16-17, 13:11, 17:1-2, Dan 7:25, Mat 24, Isa 18)

To summarize:

In Rev 13:11 the false prophet is revealed as a Jew. He comes from the 'land' and like the anti-messiah must be alive now.

In Rev 13:16-17 everyone must have the mark of the beast or his number to buy and sell i.e. to stay alive

Rev 17:1 describes the whore of Babylon sitting on many waters (seas) which is a metaphor for the whole world. In 17:2 those who rule are made wealthy by this criminal fascist enterprise but at the same time are insane (drunk) their poor judgment making them unable to recognize the folly of their (economic) decisions.

In Dan 7:25 the anti messiah will try to change miqrae, Sabbath and torah also times and laws

In Mat 24:12 the increase in torahlessness (especially the 10 statements) mean people no longer trust one another

Mat 24:14 witness to the world through the internet – happening now – with this show for example

Isaiah 18: is happening now to USA

What is the mark? Much speculation: could be:

- A physical mark such as RFID chip or bar code (see brain wave analyser for thoughts)
- A symbolic mark – the forehead is symbolic of how we think, the right hand how we work
- A religious mark – at the end two satanic religions - islam and Christianity will be joined at the hip but the union will be weak and full of friction (ten toes). Muslims who pray 5 times a day have a mark on their forehead from rubbing it in the dirt, Christians use the sign of the cross with the R hand (see catholic web sites) Tarsus in Hebrew – tav, resh, shin, waw adds to 666, the arabic for Allah uses waw, shin, shin 3 times to get 666 and Allah in Hebrew is aleph, lamed, lamed, heh which sums to 66. Putting it all together a man (number 6) – Paul and his religion Christianity combined with Islam will be the beast and his mark may simply be the Arabic for Allah. His name and his number are identical. Worse Allah is satan so those with the mark will carry satan's brand. Many Christians already use allah for the name of

god. The current pope describes Islam in glowing terms. The intersection between Islam and Christianity is that both hate Jews though the latter rarely states it openly.

So where are we in relation to these prophecies?

As Ron Paul said: "The cashless society is the IRS's dream: total knowledge of, and control over, the finances of every single American."

A precursor to the mark is the **War on cash** –criminalising cash – **and gold**. Pushing credit cards onto everyone is a way to control and steal. The cashless society is an attempt to drain the last wealth from the 99% to keep the corrupt system going and without cash, gold and the mark you will not be able to purchase the necessities of life.

One way they are waging the War on Cash is to lower the threshold at which reporting a cash transaction is mandatory or at which paying in cash is simply illegal. In just the last few years...

Italy made cash transactions over €1,000 illegal;

Switzerland has proposed banning cash payments in excess of 100,000 francs;

Russia banned cash transactions over \$10,000;

Spain banned cash transactions over €2,500;

Mexico made cash payments of more than 200,000 pesos illegal;

Uruguay banned cash transactions over \$5,000; and

France made cash transactions over €1,000 illegal, down from the previous limit of €3,000.

In Australia the use of cash is discouraged, cash withdrawals have a reporting threshold of \$10,000

We have an economic system on the brink of disaster. Unprecedented debt, currency printed in the trillions, a massive bond and stock market bubble. When this all implodes there will be a deep and prolonged depression leading to war. Massive social unrest, starvation, people on the streets will usher in totalitarian governments. Constitutions will be swept away. What is now possible due to technology will be used to fleece and control the populace. Digital money will be a starter with draconian penalties for those using the free market.

Digital money tracks all purchases, sales, movements of people and helps profile them. Debt is now unpayable world wide. Precious metals are manipulated daily and their prices are suppressed illegally but governments everywhere turn a blind eye to this. Allowing a free market in PMs would expose bankrupt nations – from the US to Europe. Gold holdings by central banks are totally secret (despite Keynes description of gold as a barbarous relic). Gold is being sold at suppressed prices to China which has been encouraging its population to acquire gold. I have no doubt this will be clawed back when the Chinese PTB so desire. The West probably has very little gold – Fort Knox empty. India

is attempting to con gold from the Indian public. This is to re-hypothecate the gold and then sell it to China to keep the Ponzi scheme going. Most people who think they have invested in gold have actually invested in paper called gold.

Recently five banks found guilty of LIBOR manipulation – UBS, Citi, JPM, Barclays, RBS. Huge fines but no one is jailed. To them this is just a cost of doing business in a criminal world and adds to the lack of trust between people seen in rampant crime and loss of morality.

Interest rates are at zero or negative and will remain there. NIRP and ZIRP cause cash runs on banks but to prevent this from happening and to keep the money in an electronic account where it can be stolen, cash will be outlawed.

The possession of and trading with gold will be outlawed as it is the last bastion of economic freedom for the man in the street. Historically FDR stole the US gold in 1934 by an unconstitutional act. This will occur again. The Australian government already has such laws on the books – temporarily suspended. These laws will be invoked again.

The PPT keeps the stock market elevated with counterfeit dollars for the 1%. The whole world is connected through currencies, stock markets, derivatives – massive so whole thing is a huge bubble about to burst.

Media, politicians and academics lie about everything - especially economic. Anyone revealing information elites don't want known are labelled as extremists or criminals (Snowdon). There have been attempts in Australia to control information through the internet and the same for the US.

Cameras track everyone in large cities, police can scan your car and identify the driver even before you see them. Drones hover overhead out of sight taking video and in some cases carrying weapons. Police act as highwaymen, robbing through 'civil forfeiture', brutalizing and even killing without due cause drivers they pull over. Iris scans and DNA profiles make it certain nobody passes unidentified.

Mat 24:14

The internet has come along at the right time to allow Yah's word to be given as a witness to the whole world – even countries that try to prevent this kind of internet access. SM and Yada Yahweh is one such. Other sites give varying degrees of truth. In a system of lies, truth becomes extreme and telling the truth becomes a revolutionary act.

Isa 18

The USA is falling apart before our eyes. It is bankrupt. States such as Illinois and California are bankrupt – and probably many other states and municipalities as well. There are rapidly increasing fees and charges everywhere, e.g. a 25% (?) increase in all property charges in Denver. The US has an openly criminal government, ignores its own constitution, kills its citizens at the whim of a corrupt police force, steals its citizens wealth and impoverishes future generations, wages war without cause and kills millions worldwide doing so, has a criminal president who orders killings without trial, a judiciary that is corrupt, a justice department that is 'just us' working only for the fascist 1%, a congress equally corrupt and a population that is too ignorant or itself corrupt to do anything about it. They go along to get along. Nearly everything in its media, commerce and academia are lies and

corruption and the very words of the language of the country are turned on their heads to confuse and mislead. War is peace, warming is cooling, handouts become unearned tax credits, equality means inequality, social justice means socialism and so on. There is increasing talk of secession in e.g. Texas which just happens to be the focus of Jade Helm, itself a prelude to an overt take-over by the oligarchs – the beasts of Isa 18.

Technologies designed specifically to track and monitor human beings have been in development for at least two decades.

In the virtual realm, software programs are now capable of watching us in real time, going so far as to make [predictions about our future behaviors](#) and sending alerts to the appropriate monitoring station depending on how a computer algorithm flags your activities.

What may be even scarier, however, is what's happening in the physical realm. According to researchers working on human-embedded microchips [it's only a matter of time](#) before these systems achieve widespread acceptance.

Chances are you're carrying a couple of RFID microchips now. And if you are, they're sending out a 15-digit number that identifies you. That number can be picked up by what's called an ISO compliant scanner. And they're everywhere, too.

It's not possible to interact with society in a meaningful way by not having a mobile phone. Human implants are likely to go along a very similar route. It would be such a disadvantage not to have the implant that it essentially becomes not optional.

What will you do when you can no longer buy or sell without submitting to biometric identification?

This technology is going to keep spreading, and it is going to become harder and harder to avoid it.

And it is easy to imagine what a tyrannical government could do with this kind of technology. If it wanted to, it could use it literally to track the movements and behavior of everyone.

And one day, this kind of technology will likely be so pervasive that you won't be able to open a bank account, get a credit card or even buy anything without having either your hand or your face scanned first.

Characteristics of the family members

Yah designed the universe quantum mechanically so it is indeterminate. It is not Newton's concept of a deterministic clockwork universe. This is the mechanism to allow free will without being constrained along a track that is pre-determined. Not even yah could tell the end from the beginning. He could time travel to see the end but chooses not to, keeping the final form a surprise to be discovered by Himself and his children together. This is a retrospective exploration and discovery from His point of view.

That was Kirk's idea

Since we live in a quantum mechanical universe the mind is also quantum mechanical. How each person thinks cannot be determined a priori. Thus our minds are as different from one another as is our DNA. This will make for exciting and interesting interactions through eternity. Exploration becomes both physical and mental.

So why won't most people listen to Yah's offer and accept it? Why the 1 in a million? To be a member of the covenant I think you would have to have at least these criteria:

1. have an inquiring mind (neshama)
2. enjoy discovery (neshama)
3. be creative and imaginative (neshama)
4. be born in the right location (genes) thus enabling access to Yah's word
5. have an upbringing that fosters an enquiring mind together with appropriate education (including access to the Torah)
6. have experiences in life that lead to Yah
7. leading to the help of the Spirit to become Torah observant

These 7 criteria would rule out the vast majority of the world's population. Matenyah 13-15 and Yahuchanan 12:40 are thus both explained.

(Mat 13:15 for the heart of this people has become thickened, and their ears are hard of hearing, and their eyes they have closed, lest they should see with their eyes and hear with their ears, lest they should understand with their heart, and turn back, and I heal them.'

Joh 12:40 "He has blinded their eyes and hardened their heart, so that they should not see with their eyes and understand with their heart, and turn, and **I should heal them.**"

Yah will only accept those who fulfill certain criteria. Hence the one in a million. For example a resident of Arabia would never be able to fulfill criteria 4 - 7. A muslim and a Christian could fail all 7. I'd be prepared to bet all family fulfill all 7 criteria.

So extending Kirk's idea the above are all features of the mind – how each individual thinks. The mind itself is in reality another non-physical dimension. With the mind we will plan and foretell the outcome of those plans. We will create other worlds of the imagination and populate them with

strange and wonderful creatures. We will create new languages; explore maths far beyond anything the most brilliant human minds can achieve now. We will create music, stories, fun and laughter. We will be together as we do this.
